INTERESTS

I love cooking, It gives me joy to
make my dish in my own style
and enjoy it at the same time. I
also love to make research, not
necessarily about tech but in all
aspect of life.

FRONTEND DEVELOPER SUMMARY

- I am a young developer with an inquisitive mindset on how technologies were developed and they are made of. That has always driven me as I believe every challenge has a solution and I can't rest until I proffer the required solution.
- However, I will acknowledge that working with others makes a solution more accurate, which is why I am always happy to work with others and I always do my best not to leave anyone behind.
- Lastly, the company goals are always my priority as regards time management, where the jobs with more dependability is given more priority to aid other team members progress on which will yield timely result(s).

PROFESSIONAL EXPERIENCE

TRAINEE

Seamfix / July 2022 - December 2022
Within the period of training, I have put in the work to understand some technologies like React, JavaScript, Sass, HTML and CSS. Its usage can be viewed from various projects I have undertaken within the time-frame.
